BRISCOE

The Most Economical Car to Run in the World

Let Us Show You. Immediate Deliveries.

How Long Will Your Car Resist the Road Demons?

From the day you buy your car, a thousand demons of the road are trying to destroy it.

Rocks, ruts and bumps endeavor to shake it to pieces. Sand and mud try to pull it apart. Hills strain it into helplessness. A thousand twists and stresses and jars are always attacking it.

Unless your car is sturdy and strong, it will not be very long before it is a racking, wheezing, groaning shadow of its former self.

Briscoe cars are 99% built in Briscoe plants, by men with a score of years experience. Every part—even the smallest—must meet Briscoe standards of quality, which means that it has had to stand strains much greater than you will ever give it.

That is why the Briscoe is, above all else, the economical car to buy.

The body of Mrs. Margaret McKay Humphrey, who died last Saturday at her home on Wendell place after a long illness of bronchitis, was taken to Montpelier this morning in B. W. Hooker & Co.'s ambulance and from there was sent on the 7:50 train to Sherbrooke, P. Q., for burial.

Mrs. Frances Humphrey of Barre, daughter of the deceased, accompanied the remains to Sherbrooke, where the funeral will be held to-morrow afternoon. Last evening at 7 o'clock a short prayer service was conducted at the home by Rev. F. L. Goodspeed.

Up to today, Goddard seminary has registered 279 students this year. This is the largest registration of any year in the history of the school. Many more are expected to enter before the end of this semester and it is thought that the registration will reach nearly 300. At the close of the first half-century of the school there were only 100 old students left in the school. One hundred and seventy new students have registered this year, the other nine having attended the school in years previous to last. Over 60 per cent of the student body are new to the school. Twenty of the students attending this year are ex-soldiers, some with commissions and a number who have seen overseas service. Thirty-eight of the 50 students graduating last spring are entering college this fall.

The New England boiled dinner and hash supper given by the ladies' aid society of the First Baptist church yesterday were well attended, about 50 being served at dinner time and 100 last evening at the harvest supper. The success of the supper and dinner realized a tidy sum for the ladies' society. The affair was in charge of the president of the society, Mrs. Frank Hutchinson, and a general committee. In connection with the harvest dinner and supper, the Unitarian girls of that church held a sale in the vestry for the benefit of their class. They had one booth of fancy articles, and their sale, as that of the whole affair of the day, was a decided success.

It will be of interest to the friends of Ralph Rogers to know that he has arrived in Beirut, Syria, and has taken up his work in the American college there, as teacher of English. Only a cablegram has been received from him, so no details of the place where he is stationed now are at hand. En route to Beirut, the party of teachers stopped 10 days in Naples and Pompeii and went to the crater of Mt. Vesuvius and down the mouth of the crater.

A portion of this money is set aside for work in Hawaii, where it is used to combat the prevalent Buddhism; to correct the terrible conditions in the movie settlements in California; for work on the Mexican border, which is rivaling Ellis Island as a port of immigration.

Various methods were resorted to in different states or towns to raise the money, but in Barre the canvassers found little difficulty in obtaining supporters and the quota of \$250. But a great amount of canvassing was necessary and the time devoted to this work was given gratis by these two women.

The work of this organization is to improve conditions existing among the women, to make environment much happier and healthier. Among the important items included in the 1919 budget for regular work of the secretaries of the Y. W. C. A. are the much needed work among foreign-born women in the U. S.; work among the industrial girls (non-war workers), featuring educational and recreational facilities, with a special effort toward summer camps; "Town and Country" work, which aims to make optimism contagious among the girls in small cities and the open country. Where this branch of work is established the national board provides a state secretary, who studies the different communities and tries to meet the needs of the girls there. "Town and Country" work has recently been opened up in Vermont with Miss Marion Gary of Rutland as secretary. Miss Gary not only has extensive plans for the future, but has already held a conference of the older girls in Vermont and a summer camp for lonely girls from isolated towns. A portion of the money raised in this campaign in Vermont will be used to defray the expenses of that camp.

BARRE'S QUOTA RAISED.

For the Y. W. C. A. "Carry-on" Fund of a Million Dollars.

Mrs. Ethel Wales and Mrs. Edna G. Jennings, who for the past month have been utilizing their spare moments canvassing among Barre people to raise \$250, Barre's quota for the Y. W. C. A. "Carry-on Fund," succeeded in their endeavor and last night were able to send to Mabel Southwick, state treasurer, the results of the month's work. This association started a national campaign but a short time ago for \$1,000,000, assigning to every state in the union a set quota for this "Carry-on Fund." In many other states this campaign was begun during the winter months.

Where this branch of work is established the national board provides a state secretary, who studies the different communities and tries to meet the needs of the girls there. "Town and Country" work has recently been opened up in Vermont with Miss Marion Gary of Rutland as secretary. Miss Gary not only has extensive plans for the future, but has already held a conference of the older girls in Vermont and a summer camp for lonely girls from isolated towns. A portion of the money raised in this campaign in Vermont will be used to defray the expenses of that camp.

A portion of this money is set aside for work in Hawaii, where it is used to combat the prevalent Buddhism; to correct the terrible conditions in the movie settlements in California; for work on the Mexican border, which is rivaling Ellis Island as a port of immigration.

Various methods were resorted to in different states or towns to raise the money, but in Barre the canvassers found little difficulty in obtaining supporters and the quota of \$250. But a great amount of canvassing was necessary and the time devoted to this work was given gratis by these two women.

The work of this organization is to improve conditions existing among the women, to make environment much happier and healthier. Among the important items included in the 1919 budget for regular work of the secretaries of the Y. W. C. A. are the much needed work among foreign-born women in the U. S.; work among the industrial girls (non-war workers), featuring educational and recreational facilities, with a special effort toward summer camps; "Town and Country" work, which aims to make optimism contagious among the girls in small cities and the open country.
